Our Mission

Gateway provides 12-Step based treatment for adult males who are struggling with various addictions. Often the addiction is made worse by co-occurring mental health issues.

Most of the Gateway counseling staff are recovering addicts themselves who can relate personally to the unique problems of denial and guilt that accompany addiction. They are all certified by the State of Louisiana and work under the direction of a Licensed Addiction Counselor. Our staff includes Certified Co-occurring Disorder Professionals.

Gateway is licensed by the Louisiana Department of Health and Hospitals to operate an Intensive Outpatient Program (IOP) in a residential environment.

MINNESOTA MODEL

Philosophy

The philosophy of the Minnesota Model, used by Gateway, is based on Alcoholics Anonymous (AA)

Goals & Objective:

The primary goal is lifetime abstinence from alcohol and other mood-altering chemicals and improved quality of life. This goal is achieved by applying the principles of the 12-step philosophy, which includes frequent meetings with other recovery people and changes in daily behaviors. The ultimate goal is personality change or change in basic thinking, feeling, and acting in the world. Within the model, this change is referred to as a spiritual experience.

Mechanism of Action

This approach works by changing an addict's belief and his relationship to others and to self. This changed perspective occurs by attending meetings, by self-reflection, and by learning new coping skills. Through this process, the client's understanding about himself in relationship to the self and to others is transformed.

Agent of Change

The main agent of change is group affiliation and practice of behaviors consistent with the group and provide opportunities for practicing behavior changes.
